HEALTH SUGGESTIONS.

Plenty of light is as essential to good health as pire air.

Eat meals of good, plain food regularly. Mut ton is the most digestible meat.

In wet weather wear stout water-proof boots in preference to rubber overshoes.

Dr. B. W. Richardson says that he has never known a death from bronchitis or pneumonia that did not spring from a cold, it follows then that cold is a more dangerous malady than is usually thought; so be careful of yourself.

By far the best method of getting rid of a cold and consequent depression is to take a little pure whisky in water. Such a stimulant promotes the circulation which has been checked and removes the effects of the chill.

Great care should be exercised in buying whisky. The presence of fusil oil or other impurities is a source of danger to those who imbibe it.

The only whisky that is manufactured for purely medical purposes is Duffy's Pure Mait and may be obtained from druggists and grocers. There is no other whisky so free from fusil oils or so pure and beneficial. The leading scientists say-o.
